### **CALL FOR ARTISTS**

We have recently doubled the size of our gallery and are nearly finished with the transformation of our interior space. Located adjacent to the new and improved Ellis Square, we provide a bustling location and a large customer base.

Our gallery features a cooperative structure, a prime downtown location, a completely renovated space, a collaborative working atmosphere, very reasonable artists' fee structures, and a proven business model.

We are now offering opportunities for new artists to join our group. Attached are the membership options and an application.
